

### Tipping Bucket Rain Gauge with Bounce-Free Reed Contact

- **Parameters measured**  
Rain/precipitation quantity
- **Measurement technology**  
Tipping bucket with bounce-free reed contact (normally closed)
- **Product highlights**  
Resolution can be switched from 0.2 to 0.5 with reduction ring, connectable to any WS-sensor without precipitation measurement
- **Interfaces**  
Impulse output (reed contact)
- **Article number**  
8353.10

Tipping bucket rain gauge with bounce-free reed contact. A 10 meter cable is included in scope of delivery.

General	
Dimensions	Ø165mm, height 285mm
Connection type	Open cable ends
Collecting area	200cm <sup>2</sup>
Weight	930g
Mounting type	On mast, Ø 60-76mm
Cable length	10 m

# Technical Data

## Rain Gauge WTB100

### Precipitation

Accuracy	±2%
Resolution	0.2
Maximum intensity	144mm/h

### Precipitation (with reduction ring)

Accuracy	±2%
Resolution	0.5
Maximum intensity	360mm/h
